BRIGHTNESS

2600 lumens

BATTERY

8A/h Lead Acid, Maintenance free, rechargeable

RUN TIME

Up to 8 hours

CHARGE TIME

7 hours from flat battery

WATER RESISTANCE

To IP 65

Building on the huge success of the Dragon Max Classic, the Dragon Max L.E.D. brings brand new technology to a trusted design. By replacing the fluorescent lighting unit with an array of 120 ultra-bright CREE® L.E.D.s, the Dragon Max L.E.D. will illuminate even the darkest of areas.

Additionally, because of the reduced power requirements, the Dragon Max L.E.D. will run for up to 8 hours, almost two shifts. Weight is also reduced by 1Kg. and charge time reduced to 7 hours.

All accessories from classic models are fully compatible with the new LED range of lights.
